

## SOUTH COAST

### CENTRAL WEST COAST OF VANCOUVER ISLAND, EAST TO NANAIMO, SOUTH TO CHEMAINUS

“OHEB community stewardship groups continue to show commitment and involvement towards protecting and restoring fish habitat and salmon stocks. Project activities include: conservation, enhancement, habitat assessment and restoration, adult and juvenile surveys, stewardship and education.

Increasingly, groups are becoming active in watershed stewardship as well and that offers hope for the future of Vancouver Island streams and their fish stocks.” – *Barry Cordocedo, CA*
